Open Access tools

Discover new tools that will help you find relevant open access sources. Find out which OA-journals are right for your articles, what they cost, and how you can pay for APCs.

Tuesday, 21.11.2023 13:00
Julia Wermelinger and Dr. Andrea Hacker, Open Science Team, UB Bern

AI tools to start your literature research

If you have chosen a topic or a key paper, but don't know how to move forward with your literature searches, there are AI tools that can help.

Wednesday, 29.11.2023 13:00
Tania Rivero, Research Support Service Team Medicine & Pharmacy, UB Bern

BORIS Portal – Research Information at UniBE

Learn about BORIS Portal, an information clearing house that connects you to ongoing research projects, funding sources, collaborators, data, and publications. UniBE's institutional repository is a one-stop shop for research information.

Thursday, 30.11.2023 13:00
Julia Wermelinger and Sumanghalyah Suntharam, Open Science Team, UB Bern

Make it your own! Personalize your LaTeX thesis with style and class

Learn to use LaTeX class and style files to create a unique look for your thesis. We show you how to start with a standard LaTeX document and customize your layout options, based on practical examples.

Thursday, 07.12.2023 13:00
Dr. Lisa Kattner, Research Support Team Science Library, UB Bern

Chat GPT and literature research: what we have learned so far

Inspired by real-life scenarios, we will show you how we use Chat GPT for literature research and point out potential pitfalls. Learn how best to prepare for your research consultation session with us!

Thursday, 14.12.2023 13:00
Tania Rivero, Research Support Service Team Medicine & Pharmacy, UB Bern
