# Systematic Review Services

## Detecting relevant publications

## Tracing Your Needs

Your systematic review is in our focus. We offer:

- **Systematic searches** runned in databases, trial registries and grey literature sources.
- **Selection of the best sources** for your topic.
- **Development of search strategies** and concepts.
- **Peer-review** of (your) search strategies.
- **De-duplicated results** delivered in the format of your choice.
- **Documentation and PRISMA checklist** for the performed searches.
- **Method's section** text ready for publication.
- **Consultation and guidance** in conducting a systematic review.

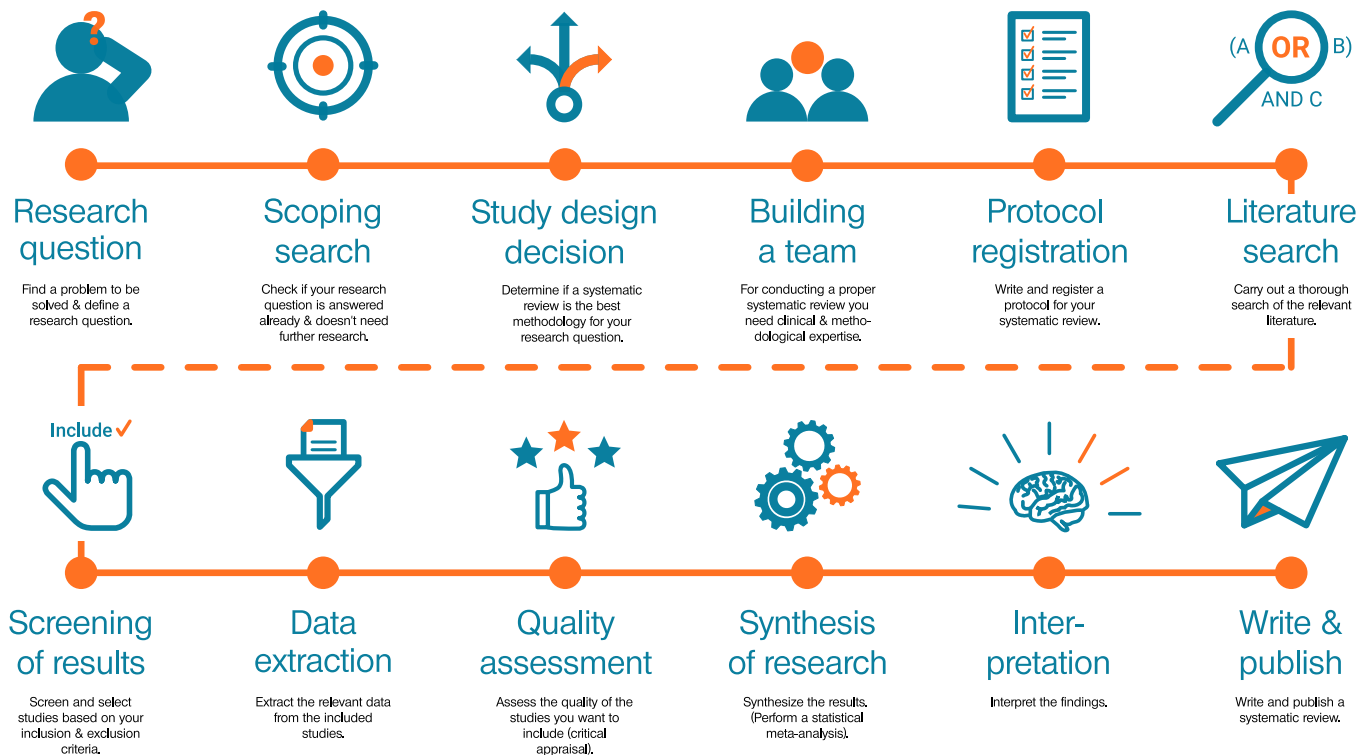

## Partners in Crime

The way we work together.

Systematic reviews are executed in a collaborative manner and take a substantial amount of time to complete. Systematic reviews can take approximately 12-18 months, from protocol to publication.

# Persuit of a Systematic Review

## Hush Money

Fees for systematic review services.

free

### Insel hospital Bern employees

Exception: Master students (see our [research support services and courses](#)); manual & grey literature searching
